## Let's Leap Terms & Conditions

---

### Holiday Camp Screen Time & Electronic Devices Policy

#### 1. Policy Statement

At Let's Leap, we are committed to providing children with **active, engaging and meaningful holiday experiences**.

Our Holiday Camps operate as a **screen-free environment**. Children are encouraged to spend their time being active, trying new experiences, developing friendships, building confidence and engaging positively with the children and staff around them.

For this reason, **personal electronic devices are not permitted for use during the camp day, and screens are not used as part of our standard Holiday Camp provision.**

#### 2. Our Screen-Free Approach

Let's Leap Holiday Camps are designed to provide children with a positive break from recreational screen time.

Throughout the day, children have access to a varied programme which may include:

- Sports and physical activities
- Team games and challenges
- Arts and crafts
- Creative and imaginative activities
- Enrichment and WOW activities
- Social and friendship-building opportunities

**Televisions, Smartboards, interactive whiteboards, monitors, tablets, games consoles and other recreational screens are not used to entertain children or fill periods of the camp day.**

Our focus is always on providing children with **real experiences, active participation and positive social interaction.**

#### 3. Personal Electronic Devices

Children should not bring personal electronic devices to camp, including:

- Mobile phones
- Tablets and iPads
- Games consoles
- Laptops
- Smartwatches where they are used for communication, recording or entertainment

- Any other personal screen-based or electronic entertainment device

Where a child does bring a device, it must remain **switched off and stored securely with their belongings** throughout the camp day.

Let's Leap cannot accept responsibility for the **loss, theft or damage of personal electronic devices** brought onto site.

#### 4. Contacting Your Child

Parents/carers should not rely on a child's personal mobile phone or smartwatch to communicate with them during camp.

If a parent/carer needs to contact their child during the day, they should contact the **Let's Leap team using the appropriate camp contact details**.

Likewise, if a child needs to contact home, a member of our team will support them in doing so.

#### 5. Photography & Recording

Children must not use personal devices to **take photographs, record videos or make audio recordings** while attending camp. This helps us protect the privacy and safeguarding of all children, families and staff.

Any photography or video taken by Let's Leap will be managed in accordance with our relevant permissions, safeguarding procedures and privacy requirements.

#### 6. Exceptions

We recognise that, in exceptional circumstances, a child may require access to an electronic device for a **medical, accessibility or additional support need**.

Any such requirement should be discussed and agreed with Let's Leap **before the child attends camp**, allowing appropriate arrangements to be put in place.

#### 7. Staff Responsibilities

All Let's Leap staff are responsible for promoting and maintaining our screen-free approach.

Personal phones must not be used by staff while supervising children except where required for **authorised operational, safeguarding or emergency purposes**, in line with company procedures.

Staff must not use televisions, Smartboards, interactive whiteboards, monitors or other screens as a form of entertainment for children during the camp day.

#### 8. Our Commitment

Our screen-free approach is an important part of the **Let's Leap experience**.

We want children to leave camp having **been active, tried something new, made friends, built confidence and created unforgettable memories** – rather than having spent their school holidays looking at a screen.

We appreciate the support of parents, carers and our team in helping us maintain a **positive, engaging and screen-free Holiday Camp environment**.
